Have fun crafting!

The new colour of the year is here: Rose quartz and serenity.

In sharp contrast to last year's bold 'marsala', Pantone has chosen a blend between two soft pastel shades for 2016. A blend that reflects our desire for peace and security.

The combination of cool, tranquil blue and subtle, warm rosé reminds us of the need for calm in our often otherwise stressful everyday lives and, at the same time, sends out a signal in the matter of gender equality.

Not only that, it's stylish too! All the more reason to adorn ourselves with this stunning necklace in trend colour of the year 2016!

STAEDTLER

Statement necklace in colour of the year

You will need these STAEDTLER articles:

Product	Colour	Art. no.	Quantity	✓
FIMO soft	Trend colour blossom	8020-21	1	
	Brilliant blue	8020-33	1	
	White	8020-0	1	
Acrylic roller	--	8700-05	1	
Blade set	--	8700-14	1	
Bead-piercing needles	--	8712-20	1	
Shaped cutters	--	8724-03	1	
Clay machine	--	8713	1	

You will also require:

Smooth work surface (glass or ceramic), sheet of beeswax, hexagonal cutter, round and flat nose pliers, jump rings, link chain

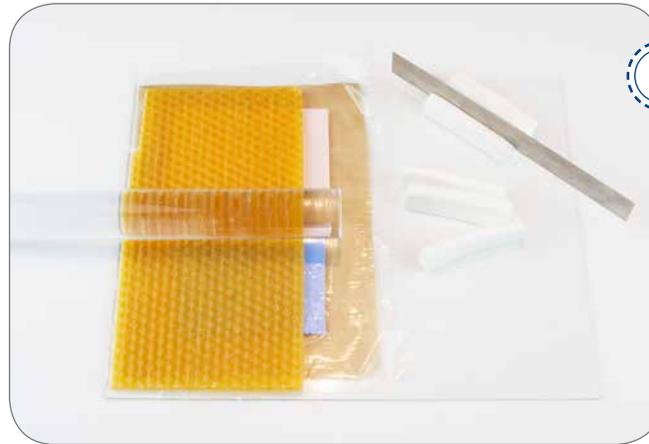

Instructions for Statement necklace in colour of the year

Blending: To create the trend colour serenity, take the FIMO soft brilliant blue and FIMO soft white and roll each of them out to a uniformly thick sheet using the clay machine on setting 3.

Take a cutter and cut out seven parts white and two parts brilliant blue. It is important that you always use the same cutter. Next, knead the cut-out pieces together and roll out with the clay machine on the largest setting.

Fold the sheet of FIMO together and roll through the clay machine again. Continue to do this until you are left with uniform-coloured clay. To create a more intense blue colour, add three more parts brilliant blue.

Embossing: Using the clay machine on setting 2, roll out four strips each of FIMO soft blossom, FIMO soft white and the serenity colour blend.

Cut the sheets in half and emboss as follows: Place half of the sheets on a piece of clingfilm and fold the clingfilm over so that it covers the top side of the clay as well.

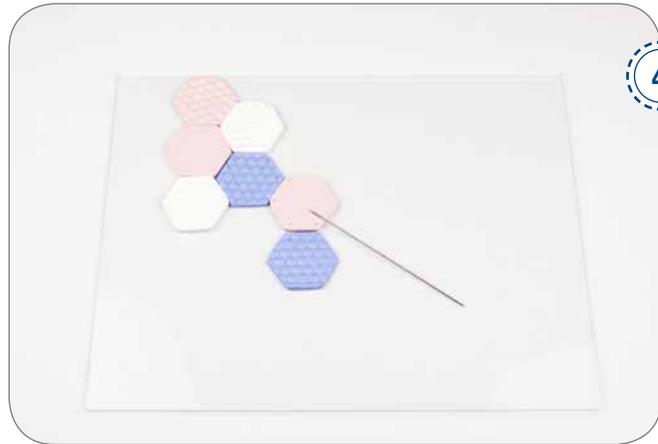

Place the sheet of beeswax on the clingfilm, press on lightly and roll over firmly using the acrylic roller. Then lift it off carefully.

Shapes: Place the embossed and unembossed sheets onto a piece of baking paper and cut honeycomb shapes out of them using a hexagonal-shaped cutter.

Tip: Unfinished items and left-over bits of material can be stored in a sealed plastic bag or airtight container, e.g. a plastic box or jar.

4

Arrange: Put the honeycombs next to each other and arrange them to an attractive necklace design.

Use a bead-piercing needle to make two holes on the sides that are to be joined with other honeycombs.

5

Then harden all honeycombs in the oven for 30 minutes at 110°C. Once the honeycombs have cooled, join together with jump rings.

To do so, bend the jump rings open with the pliers, push through the holes and bend closed again. Attach the chain to the corners using one jump ring on each side.
